Bradford Fairgrounds 8:00 - 11:00 AM

National 4-H Science Day

Join us on October 8th, 3:30-4:30 pm for a salute to National 4-H Week. We will be participating in a National 4-H Science Experiment. Youth will have an opportunity to learn about and experiment with **Hydrogels** (used for chemical clean ups and also in baby diapers-the white stuff you find in the padding). Families will enjoy this opportunity to get their hands in an experiment and a fun too!

Pork Quality Assurance+

The Bradford County Extension Office will host a Youth Pork Quality Assurance (PQA) Plus Workshop on October 23, 2008 at the County Extension Office.

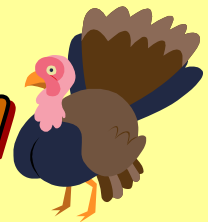

Youth who plan to attend the State Fair in Tampa this year will need to have a PQA number along with their Ethics training prior to February. This update will begin at 5:00 PM with an overview of the 10 Good Production Practices (GPP). After the GPP have been reviewed, an exam will be offered at 8:00 PM to complete the certification requirements.

Reservations for this workshop can be secured by calling the Bradford County Extension Office at 904-966-6224 by October 21st

Cloverbud Congress

November 8, 2008

10-Noon, registration at 9:45 am

Come join the fun & bring a friend!
